

SUMMARY

After 7+ years of creating seamless journeys in the sky, I've traded the clouds for the screen, but my mission hasn't changed. My background in aviation taught me everything I know about empathy and high stakes problem solving. Today, I apply that same 'seamless journey' mindset to UX/UI design. As a self-taught designer and a curious soul, I believe that the best digital experiences should feel as natural as a conversation.

SKILLS

Design Tools: Figma, Canva

Research & Process: User Flows, Wireframing, Prototyping, User Interviews, Usability Testing
